## Your Vision, Our Expertise

### Let CAC By Design Help You Find Your Dream Countertop!

Our showrooms have full-time professional designers to assist you with your countertop project. The first step of your project will be to provide a countertop drawing. The second step will be to complete the Countertop Planner questionnaire below. The planner will help you organize, gather and document the information that you will need for your project. After you create a countertop drawing and complete the questionnaire, we welcome you to bring them to one of our showrooms and discuss your project with one of our designers. You will then be provided with a custom proposal and quote. Appointments are not necessary but encouraged. We look forward to meeting and working with you on your project!

Remember, you are under no obligation to purchase anything and we will never sell you something that you do not need or do not want or that exceeds your budget.
